

The Central States Section of the Combustion Institute

Combustion Art Competition

8th US National Combustion Meeting
May 19-22, 2013; Canyons Resort in Park City, Utah

CASH PRIZES will be awarded for first place (\$400) in both Artistic Merit and Technical Merit categories.

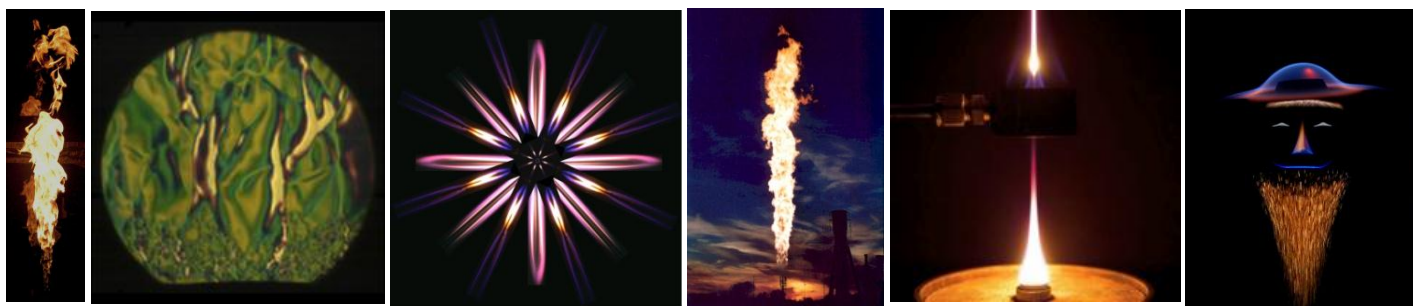

Submissions will be evaluated based on their artistic merit and/or technical merit, and prizes will be awarded for both categories. Eligible entries include (but are not limited to): images (photographs or computer-generated), paintings, drawings, sketches, sculpture, videos, etc. of combustion or combustion-related phenomena. Rearrangement, assembly, or modification of combustion images into an art-form is appropriate and encouraged. Some examples of such works are shown below. Submission indicates your permission for your artwork to be displayed on the CSS website.

Electronically submit a high resolution image or video with caption and brief explanation of your submission to Sandra Olson (Sandra.L.Olson@NASA.gov) by **April 26, 2013.**

Participation requires you to display your artwork at the meeting. In case of an image, we recommend you to mount it within a frame of **size no greater than 25" by 16"**. *The display should include the caption, brief explanation, and submitters' name and affiliation.* Similar to what one would see in an art gallery, the quality of printing, use of border, frames, 3D effects, etc, can significantly enhance the visual and professional appeal of your artwork. We recommend video submissions be displayed using an appropriate imaging device set to repeat.

You are expected to set up your display at the meeting site by 8:00 AM on Monday, May 20 and remove it by the end of the meeting on Wednesday, May 22nd. Please make the necessary arrangements to set up your display if you are unable to attend the meeting or your arrival/departure times are in conflict. We will provide easels for your art displays. Contact Sandra Olson if you have special display needs.

The peer voting will occur May 21st. We plan to announce the winners before the plenary session on Wednesday, May 22nd. We thank you for your contributions and look forward to a very successful event. We look forward to seeing your combustion art work! Best of luck in the competition!
